

2022 Fall Lake Association Meeting – Nov 5 via Zoom

Attended by:

Scott & Sue Solberg

John Paasonen

Lisa Hanson

Susan & Dan Pape

Sharon & Rick Williamson

Chris Hurlburt

Vicky Preimesberger

1. Paving Cty 23, North side of East basin from Hwy 64 to the Cass County line (~ 4 miles)

- Scott went to County Meeting - paving is on schedule for 2027 - the said there would be no assessment to owners along the road

- Until then the County wanted to use calcium chloride on the road for dust control. 2 people were for it and 10 against due to car damage and it turns to mud, so the County will not be putting down any dust control

-There will need to be modifications to the roadway which will make it as wide as possible and will likely need curb & gutter, modifications to drainage into lake (likely holding tanks for settling). Concerns brought up for erosion as some areas are already VERY narrow to waters edge from Cty 23

2. Boat Inspection hours

-The fee is a total of \$2700 - Lake Assn, Akeley City and Akeley Township each pay a third.

- Lisa will send payment of \$923 for the coming year and also attend the Akeley City meeting (not sure of date)

3. Treasurers Report

Lisa gave the report of current finances for our lake association

5,534	Beginning Balance
2,565	Deposits
7	Misc
(296)	Cola Dues
7,810	Ending Balance

4. - Approved expense of \$923 for Boat Inspections for 2023

4. Loon's Nest

-Loon pair nested in our artificial nesting platform on the north shore of East basin. Eggs were laid in early June, which ended in predation of eggs/chicks (likely by eagles). This happened despite the chicken wire roof covering, so we thought we would change tactics again in 2023. Its been a number of years since there was any long term successful hatches in the East basin due to predation. In all the years prior, loons were able to hatch 1-2 broods in the East basin. Successful hatch did occur in the West basin!

- Scott will move it during the winter to Pape's shoreline and they will place it by their shore in the spring.

5. Sue Pape is interested in reducing the speed on 64.

- Have her contact Vicky Preimesberger at vpathome@hotmail.com or 612-309-6466
